

ESU YEAR OF INFORMATION & TECHNOLOGY EVENT

"Distance Education Technology In Kansas Today ...

What's Out There, and How it Works"

If you've heard about fiber optics, compressed video, satellites, and the Internet, but you're not sure how it impacts you...

If you're working **HARD** in distance education, but not sure if you're working **SMART**, and would like to see how others are doing things...

Participate in this **INTERACTIVE** state-wide forum

TV Studio, VH 115
Thursday December 1, 1994
4:00 - 5:00pm

For more Information call Dr. Michael Clay (316) 341-5740
