

# Gates meets Spielberg

## IT 743 B

# Directing & Producing Multimedia

*3 credits*

*June 8 - 25 8:30am - 12noon*

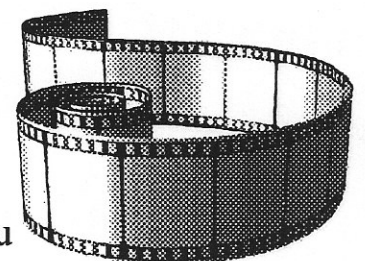

*Visser Hall 125*

Students will direct and produce an educational video along with an interactive CD. Development of this production will help a "budding Spielberg" learn the basics including storyboarding, cinematography, working with actors, lighting, camera framing and shooting. The next "Bill Gates" will learn how to digitize video segments for non-linear editing of video, sound effects and music on the computer. The finished product will be an interactive multimedia production.

Taught by:  
Dr. Dusti Howell &  
Greg Ziesenis, Video Producer
